

Foot Pain: Dr. Waskin Talks About it on Virginia This Morning - Richmond, VA Podiatrists - The Foot and Ankle Center

By The Foot & Ankle Center

April 20, 2016

Did you catch Dr. Waskin on CBS-6 recently?

He joined Greg McQuade on Virginia This Morning to talk about foot, ankle and heel pain and some of the treatments available. Dr. Waskin pointed out that many treatments are painless and conservative (non-surgical). These treatments may range from use of custom orthotics in the shoes to the latest laser therapy for pain relief.

MLS Laser Therapy is the newest treatment for pain, now available at The Foot & Ankle Center for the first time in Richmond. The procedure is being called revolutionary by doctors and patients across the country, for its ability to rapidly and effectively relieve pain.

Dr. Waskin will be hosting a free Foot Pain Seminar at his clinic on April 26, from 5:45 - 7 p.m.

He will discuss the various foot pain treatments available, including the new MLS Laser Therapy, and he will be available to answer questions after the presentation. Space is limited, and registration is encouraged.
